FORMATS AVAILABLE

FULLY MANAGED ■

A Fully Managed Event is where we have an event manager and support staff physically attend your event at your office, hotel or venue.

IN PERSON WITH REMOTE HOST ●

A remotely run event is where there is no need for an event manager on site. All of the participants are together in a hotel conference room or office. We deliver the briefing and results via video conference and support the activities remotely. Our event manager will remotely monitor your event online to ensure everything is running smoothly.

A HYBRID EVENT is where we can have in-person and online participants at the same time. Some people will be at the event venue and others will dial in via their own video conference.

ONLINE & VIRTUAL ▲

A online or fully virtual event is where all participants, host and support staff attend via their own video conferencing connection (i.e. a zoom / MS Teams / Webex / Hangouts call)

SELF RUN ☾

A self run event does not require a host at all. One of our experienced event managers will meet with you and the team captains in advance of the event to run through how the event works and to deal with any questions you may have. We set you up for success by giving you the knowledge and confidence to enjoy a great event while providing dedicated phone support for the duration of your event.
